

KLOVE is an intergral part of each and every day in my life. It provides me with daily inspiration in my walk with God. It allows me, through my contributions, to help others find the Lord. If KLOVE were replaced beause of the new broadcast service LPFM, many people in the Denver community would lose out on an outlet for their spiritual needs. KLOVE has pastors on staff 24/7 to help people with difficulties in their lives. It would be terrible if someone contemplating suicide was not able to call KLOVE and be helped. Or, if the Rescue Missions (who KLOVE has helped raise funds for thru their info on the station) were negatively impacted. PLEASE DO NOT allow the LPFM stations to take priority over the current FM stations.
